

## Frameless Far-Infrared Towel Heater Family

### About Our Product Range:

#### Frameless Far-Infrared Towel Rail Panel

Available in oval or rectangle build; Black or White

Towel heaters from Yandiya offer a stylish rail design which dries towels, to leave them with a naturally fresh and sun-dried feel.

Our heated infrared towel rails provide comfort and warmth, complemented by a sleek and elegant design. Its subtle and elegant appearance makes it a perfect addition to your bathroom, as well as shower rooms.

With an IP65 protection rating, wet towels are no problem when it comes to our infrared towel rails. The towel rails can also be controlled via thermostat controls.

The heated towel rail comes with 2 slots to hang your towel. A great solution to avoid damp smelling towels as well as heating your bath or shower room.

Our far-infrared towel rails come in a glass build. Available in both rectangle and oval shape, black or white colour.
