## Yandiya Smart Controls Family

About Our Product Range:

### Yandiya Smart Controls

Our range of smart heating controls can help you to reach maximum efficiency and comfort from our far-infrared heating panels.

From the convenience of your smart phone, tablet or computer, you can take control of your heating system to its full potential. Helping you save money on your bill.

The smart control app allows you to create your own heating schedule. Control your heating remotely, allowing you to turn it on before you arrive and turn it off away from the zone, as well as other benefits.

The smart control app lets you monitor and analyse your heating data, for up to 3 months. If you use our electric monitor, you can monitor 4 devices at a time. Which will display all the data on a bar chart.

Our Yandiya Smart Controls come with a 5 year warranty.\*

### Check Out Our Other Products:

**Blade Far-Infrared  
Power Heater**  
Available in  
1800w

An alternative power heater, to heat outdoor and large indoor areas. Available with remote control.

**Underfloor  
Heating Kits**  
Available in  
325w-3250w

For discreet far-infrared heating, our underfloor heating kits can help heat areas where panels aren't suited for installation.

**Mirror  
finish**

Available in Round or Square with or without LED 350w-500w

**Aluminium  
finish**

Available in Anti-Microbial and Low-Surface Temperature finishes

**Glass  
finish**

Premium Glass finish; a modern look to complement your décor.
